

# HORIZONS

Cope Foundation in Cork Communities

Do you have the **woodwork/craft skills**?

## Carpenter/Woodwork Tutor

Many of the people we support would love the opportunity to learn woodwork skills and make small wooden items i.e. flower boxes, trays, coasters etc. and paint/decorate the items.

Do you have the woodwork/craft skills required for this? Could you share your talents with them? This group would get great satisfaction from completing a basic project and would love attending this weekly class. The ideal day for this would be Tuesday, for 2 to 3 hours but we can be flexible with the timetable to suit the volunteer's availability.

*No experience of people with disabilities is required as training and support will be provided. Volunteers need a kind, caring attitude and an interest in helping people to be included as equals in society and to reach their full potential.*

*By supporting us with these roles you will be adding great value to the quality of people's lives and will be helping them to achieve their personal goals.*

*The ideal day for this would be Tuesday, for 2 to 3 hours.*

*Mallow area*
